DENTISTRY**

FACULTY OF DENTISTRY

The Doctor of Dental Medicine (DMD) program at Al-Ahliyya Amman University is a comprehensive five-year curriculum, encompassing 200 credit hours. This program aims to produce highly skilled and ethical dentists, proficient in both theoretical and practical dental care. It includes:

- In-depth study of basic and medical sciences.
- Understanding public health principles and human body ailments.
- Extensive training in basic and clinical dental sciences.
- Hands-on experience in modern dental practices.
- Emphasis on critical thinking and problem-solving skills.
- Innovative teaching methods.
- Encouragement of robust scientific research capabilities.

Al-Ahliyya Amman University prepares graduates to diagnose and treat a wide range of oral and dental diseases, contributing significantly to the field of dentistry.

FACULTY OF ARTS AND SCIENCES

FACULTY OF ARTS & SCIENCES

The Faculty of Arts and Sciences offers robust undergraduate programs designed to prepare students for diverse career paths. Programs include:

- **English Language and Literature:**

Focuses on literary analysis, critical thinking, and communication skills.

- **English Language and Translation:**

Equips students with advanced translation skills across various fields.

- **Clinical Psychology:**

Provides comprehensive training in psychological assessment, diagnosis, and treatment.

Each program emphasizes practical experience, critical thinking, and scientific research, ensuring graduates are well-prepared for their professional endeavors.

FACULTY OF LAW

FACULTY OF LAW

The Faculty of Law at Al-Ahliyya Amman University offers a comprehensive undergraduate program designed to develop highly skilled legal professionals. The program covers various areas of law, including civil, criminal, and commercial law, providing students with a deep understanding of legal principles and practices. Emphasizing critical thinking, analytical skills, and practical experience, the curriculum prepares graduates to excel in legal careers and contribute effectively to the justice system. Through innovative teaching methods and a strong commitment to research, the Faculty of Law ensures that students are well-equipped to navigate and impact the legal landscape.

BUSINESS SCHOOL

BUSINESS SCHOOL

Business School at Al-Ahliyya Amman University offers undergraduate programs designed to prepare students for diverse career paths. Programs include:

- **Business Administration:** Acquire a solid foundation in business principles, management practices, and organizational behavior, preparing for leadership roles across various industries.
- **E-Marketing and Digital Communication:** Focus on contemporary marketing strategies, digital communication techniques, and online consumer behavior to excel in the dynamic digital marketplace.
- **Financial Technology:** Explore the fusion of finance and technology, covering fintech innovations, digital currencies, and financial systems to succeed in the evolving financial sector.
- **Electronic Business and Commerce:** Emphasize e-commerce principles, online business operations, and digital transaction management to thrive in the digital business landscape.
- **International Accounting & Audit:** Gain expertise in global accounting principles, international financial reporting standards (IFRS), and cross-border financial analysis to meet the demands of international business environments.

Each program integrates practical experience, critical thinking, and innovative teaching methods, ensuring graduates are well-prepared to tackle challenges in their respective fields.

**FACULTY OF
ENGINEERING**

FACULTY OF ENGINEERING

The Faculty of Engineering offers a diverse selection of undergraduate programs tailored to equip students with cutting-edge skills and knowledge. Programs include:

- **Communications and Computer Engineering:** Explore the integration of communication systems and computer technology, preparing students for careers in telecommunications, networking, and software development.
- **Medical Engineering:** Combine engineering principles with medical sciences to innovate healthcare technologies, preparing students for roles in biomedical device development and healthcare infrastructure.
- **Civil Engineering:** Learn the design and construction of infrastructure projects, including buildings, bridges, and transportation systems, to address societal needs for sustainable development and urban planning.
- **Electrical Engineering:** Focus on the generation, transmission, and utilization of electrical power and systems, preparing students for careers in energy production, electronics, and renewable energy technologies.
- **Robotics and Artificial Intelligence Engineering:** Dive into the world of robotics, automation, and AI technologies, equipping students to develop intelligent systems for various industries such as manufacturing, healthcare, and automotive sectors.
- **Intelligent Vehicle Engineering:** Explore the design and development of autonomous and smart vehicles, integrating technology for safer and more efficient transportation solutions in the automotive industry.

These programs emphasize hands-on experience, critical thinking, and innovative problem-solving approaches, ensuring graduates are well-prepared to lead and innovate in their respective fields.

A young man with glasses and a white hoodie is smiling while looking at a woman with long brown hair who is pointing at a piece of electronic equipment. They are in a laboratory or classroom setting with a large stylized 'Y' logo in the background. The text 'FACULTY OF INFORMATION TECHNOLOGY' is overlaid on the right side of the image.

**FACULTY OF
INFORMATION
TECHNOLOGY**

FACULTY OF INFORMATION TECHNOLOGY

The Faculty of Information Technology at Al-Ahliyya Amman University offers dynamic undergraduate programs designed to equip students with essential skills for thriving in the digital age:

- **Computer Science:** Explore the foundations of computing, algorithms, and programming languages, preparing for careers in software development, IT consulting, and technology innovation.
- **Software Engineering:** Master the systematic approach to software design, development, and maintenance, focusing on software project management and quality assurance for robust software solutions.
- **Networks and Cybersecurity:** Learn network infrastructure, protocols, and cybersecurity measures to protect data and systems, preparing for roles as network administrators, cybersecurity analysts, and information security specialists.
- **Data Science and Artificial Intelligence:** Develop proficiency in data analysis, machine learning techniques, and AI applications, gaining insights into big data analytics and intelligent system development.

These programs emphasize hands-on learning, critical thinking, and innovation, ensuring graduates are well-prepared for careers in the rapidly evolving field of information technology.

A female pharmacist with long brown hair, wearing a white lab coat and blue gloves, is focused on writing in a notebook. She is holding a blue pen. The background shows a laboratory environment with a blurred orange light source and a yellow warning sign. The text "FACULTY OF PHARMACY" is overlaid in white, bold, uppercase letters within a white rectangular frame.

FACULTY OF PHARMACY

FACULTY OF PHARMACY

The Faculty of Pharmacy at Al-Ahliyya Amman University provides a comprehensive education that prepares students for successful careers in the pharmaceutical industry and healthcare sector.

The program combines strong theoretical foundations with practical experiences to develop skilled professionals.

FACULTY OF ALLIED MEDICAL SCIENCES

The Faculty of Allied Medical Sciences at Al-Ahliyya Amman University offers a range of undergraduate programs designed to prepare students for diverse careers in healthcare:

- **Medical Laboratory Sciences:** Gain expertise in clinical laboratory techniques, diagnostics, and biomedical sciences, preparing for roles in medical testing and research.
- **Audiology and Speech Pathology:** Study the diagnosis and treatment of communication disorders and hearing impairments, preparing for careers in speech therapy and audiology.
- **Optometry Science:** Learn about vision care and eye health, focusing on optical technologies and techniques for optometric practice and vision correction.
- **Cosmetic Science:** Explore the science behind cosmetics and skincare products, studying formulation techniques and cosmetic chemistry for careers in the cosmetic industry.
- **Physical Therapy & OT:** Master rehabilitative techniques and therapeutic exercises, preparing to work with patients to restore physical function and mobility.
- **Pharmaceutical Biotechnology:** Combine pharmaceutical sciences with biotechnology, focusing on drug development, biopharmaceuticals, and molecular biology for careers in pharmaceutical research and development.

FACULTY OF NURSING

FACULTY OF NURSING

The Faculty of Nursing at Al-Ahliyya Amman University offers a comprehensive undergraduate program aimed at preparing compassionate and competent healthcare professionals:

Explore the foundational principles of nursing practice, emphasizing patient-centered care, health promotion, and evidence-based practice. Through hands-on clinical training and theoretical coursework, students develop essential skills in critical thinking, clinical reasoning, and interdisciplinary collaboration. Graduates of the program are equipped to excel in various healthcare settings, contributing to patient wellness and healthcare advancement.

The program emphasizes ethical practice, lifelong learning, and leadership in nursing, ensuring graduates are well-prepared to meet the dynamic challenges of modern healthcare.

**FACULTY OF
ARCHITECTURE
AND DESIGN**

FACULTY OF ARCHITECTURE AND DESIGN

The Faculty of Architecture and Design (FAD) at Al-Ahliyya Amman University, established in 2009, offers dynamic undergraduate programs aimed at preparing students for professional practice in architecture and design:

- **Architecture Engineering:** Explore the principles of architectural design, building construction, and urban planning, focusing on sustainable architecture and innovative design solutions.
- **Interior Design:** Learn the art of creating functional and aesthetically pleasing interior spaces, mastering design principles, materials, and spatial configurations for residential and commercial environments.
- **Multimedia and Graphic Design:** Develop proficiency in visual communication and digital media, including graphic design, digital illustration, and multimedia production techniques for various platforms.
- **Design of Cinema TV and Theatre:** Dive into the creative process of designing sets and environments for film, television, and theatre productions, combining artistic expression with technical expertise.

**FACULTY OF
AGRICULTURAL
TECHNOLOGY**

FACULTY OF AGRICULTURAL TECHNOLOGY

The Faculty of Agricultural Technology (AT) at Al-Ahliyya Amman University is dedicated to addressing global challenges in food security and climate change through innovative agricultural practices:

Agricultural Biotechnology and Genetic Engineering: Explore the application of biotechnology in agriculture, focusing on genetic manipulation, crop improvement, and sustainable farming practices. Students gain hands-on experience in biotechnological techniques, bioinformatics, and ethical considerations in genetic engineering. The program prepares graduates to contribute to agricultural innovation and food production sustainability.

**FACULTY OF
EDUCATIONAL
SCIENCES**

FACULTY OF EDUCATIONAL SCIENCES

Step into the realm of transformational education at the Faculty of Allied Medical Sciences, where innovation meets compassion in specialized undergraduate programs:

Special Education: Embark on a journey to empower minds and hearts in inclusive classrooms. Dive into the art of teaching tailored to diverse learning needs, mastering strategies that nurture every learner's potential. With hands-on experience and a commitment to advocacy, shape the future of education for individuals with unique abilities.

Physical and Health Education: Explore the boundless energy of wellness and vitality. Delve into the science of movement, health, and sports education, equipping yourself to inspire active lifestyles and promote well-being. Through dynamic training and community engagement, become a catalyst for healthier futures and stronger communities.

**FACULTY OF
TOURISM &
HOSPITALITY
MANAGEMENT**

FACULTY OF TOURISM & HOSPITALITY MANAGEMENT

Step into the realm of transformational education at the Faculty of Allied Medical Sciences, where innovation meets compassion in specialized undergraduate programs:

Hospitality Management and Culinary Arts: Embrace the heart of hospitality and the artistry of culinary excellence in this innovative program. Gain expertise in managing dynamic hotel environments, mastering guest relations, operations, and strategic planning. Delve into the culinary arts, refining skills in gastronomy, kitchen management, and culinary innovation. With hands-on training and a global perspective, prepare to lead in shaping unforgettable guest experiences and contributing to the flourishing hospitality sector.

A photograph of a bowling alley. In the foreground, a white Brunswick ball return machine is filled with colorful bowling balls in shades of red, blue, green, yellow, and orange. The machine has the Brunswick logo on top. In the background, several bowling lanes are visible, each with a set of white bowling pins at the end. The lanes are numbered 1 through 6. The wall behind the lanes is decorated with colorful silhouettes of various sports figures. The ceiling is dark with recessed lighting. The overall lighting is dim, with some colorful spotlights on the floor.

CAMPUS & FACILITIES

Exchange Students

Al-Ahliyya Amman University (AAU) is honored to offer a variety of programs that were designed and developed by dedicated professors to provide incoming exchange students with many learning opportunities situated in practice and scientific research.
