Dr. Ahmad Al-Hourani

May his Soul rest in Peace

Founder of Al-Ahliyya Amman University

Quote from the Founding Father

"While watching people of my country travel abroad to pursue their higher education, I was determined to establish the first private university in Jordan and the MENA region"

Dr. Maher Ahmad Al-Hourani

Chairman of the Board of Directors at Al-Ahliyya
Amman University

Statement by the Chairman of the Board of Directors

Although Dr. Ahmad Al-Hourani is not present with us, his soul remains amongst us, giving us the strength and motivating us to give, accomplish, and create. And ever since, all of us here at Al-Ahliyya Amman University are keen on carrying with the journey he started with all our knowledge and abilities.

Professor Sari Hamdan
President of Al-Ahliyya Amman University

From the President

It is my greatest pleasure to welcome you in Al-Ahliyya Amman University, which has been founded as the first private university in the Arab region in 1989. The university pursued its educational goals in 1990, focusing on elevating the quality and standards of education in Jordan.

In the recent years, the higher education sector in Jordan has been developing significantly due to the growing awareness of the education quality and its components. Since then, the university has maintained this growth & development and proceeded in evolving its policies, making the quality and excellence of education as its core vision. We are always taking confident steps towards local and international accreditation for all academic programs at the twelve faculties. The University earned the Jordanian Quality Assurance Accreditation, the International ABET Certificate and is looking forward to obtain further future accreditations. We believe that our university is fully aware of its responsibility towards its community and is working continuously and efficiently to serve its multidisciplinary centers. As well as launching initiatives and projects aiming to develop the surrounding community, particularly the Balqa Governorate, which aligns with our vision and mission.

Why Al-Ahliyya Amman University?

Al-Ahliyya Amman University is the pioneer of private higher education in Jordan. It is accredited locally and internationally in addition to being a member of the Association of Arab Universities, The Federation of Universities of the Islamic World, and the International Association of Universities. Since its establishment, the university witnessed a significant development in elevating the quality of educational outcomes by adopting methods that are based on building a system of quality assurance in line with international standards at all its academic departments and administrative units. We aim at achieving a distinguished position among higher education institutions in Jordan and the MENA region.

The university has also adopted advanced technologies and E-learning methods and has integrated them into the learning system for the purpose of sustaining technological advancements and updates that arise in the age of technology revolution.

After 33 years of continuous work and consistent efforts dedicated to provide innovative academic programs. Al-Ahliyya Amman University offers **33** various Bachelor programs within **12** diverse faculties, Information Technology, Architecture & Design, Nursing, Pharmacy, Allied Medical Sciences, Arts & Sciences, Engineering, Law, Business School, Educational Sciences and Agriculture Technology and Graduate Studies in addition to **20** Master programs and **2** higher Diploma programs.

The university is determined to accomplish its vision and mission and has already set its strategic plan for the upcoming 5 years under the slogan: towards a comprehensive quality, sustainable development, and ultimately an intellectual university.

University Admission Regulations and Requirements

Al-Ahliyya Amman University implements admission regulations of the Jordanian private universities issued by the Ministry of Higher Education and Scientific Research. The university requires the Jordanian General Secondary Certificate or its equivalent for admission in accordance with the following:

- The student must have acquired a Jordanian General Secondary Certificate or its equivalent.
- Non-Jordanian students are accepted under the condition that their total average does not exceed 15 points below the required average for each academic program and should score not less than (50%) in each school subject. The Ministry of Higher Education and Scientific Research gives this exception to students that carry an official letter from the Jordan Civil Status & Passport Department proving a non-Jordanian nationality.
- Non-Jordanian students holding any official high school certificate that is not equivalent to the standard Jordanian General Secondary Certificate must provide the university with official letters from their embassies, stating that the student meets the regulations applied at their country's universities.
- Jordanian students that obtained a Jordanian Vocational General Secondary Certificate must pass two additional subjects starting from the academic year 1997/1998. Certificates that are obtained prior to this year are enrolled upon providing an official letter from the Ministry of Education stating no extra subjects were required for that year.
- Jordanian students that obtained a Jordanian Commercial General Secondary Certificate in previous years without additional subjects are accepted at the faculties of Arts, Business, Law, and Design. This condition has been applied starting the academic year 2017/2018.

Department of
Admission
and Registration

- Students willing to enroll in the faculties of Pharmacy and Engineering holding (Shamel) Comprehensive Diploma Exam must have a passing grade of 70%. The passing grade condition for other faculties is 68%.
- Students with a Diploma degree are accepted in regards to the official bulletin officially issued every academic year, regardless of the General Secondary Certificate average or branch, except the Faculty of Pharmacy which requires the scientific branch.
- If the Diploma specialty has no equivalence, the student is accepted in accordance to the General Secondary Certificate taking into consideration equivalent Diploma courses.
- If the total average does not qualify the student for a certain specialty, the student is accepted based on the General Secondary Certificate, taking into consideration equivalent Diploma courses. That applies in accordance with the Ministry of Higher Education and Scientific Research regulations, granting full authority to the Deans Council to consider equivalent Diploma courses at various academic levels.

Students with non-Jordanian Diplomas are enrolled as followed:

- * Jordanian students should pass the (Shamel) Comprehensive Exam at the Balqa Applied University in accordance with rules and regulations.
- * Non-Jordanian students must provide official letters from their embassies certifying their registration at their country's universities.

Required documentation for enrolment

- Certified original copy of the Jordanian General Secondary Certificate.
- Certified transcript for transferal students.
- Certificate of good conduct and behavior for transferal students.
- Passport photocopy.
- 2 biometric photos.
- Birth certificate photocopy
- Identification card photocopy for Jordanian students
- Military Service Booklet for Jordanian male students
- Security pass or residence in a Gulf state for Syrian students
- Certified Diploma transcript
- Certified (Shamel) Comprehensive Exam Certificate
- Official approval letter from the Cultural Attaché for the following Nationalities:
(Kuwait, Yemen, Bahrain, Iraq, Qatar, Malaysia, UAE, Oman, and Libya)

Students can register online
at the following link:

Grading System

The academic year is divided into two main semesters; each semester duration is sixteen weeks including the examination period. In addition to an optional intensive summer semester for ten weeks including the examination period.

The university follows the points grading system out of (4). The course grade is submitted in letters as shown here:

Grade	Points	Grade	Points
C	2	A	4
-C	1.75	-A	3.75
+D	1.5	+B	3.5
D	1	B	3
-D	0.75	-B	2.75
E	0.5	+C	2.5

The semester's GPA and cumulative GPA are evaluated as shown here:

Points	Evaluation
3.65 - 4	Excellent
3.64 - 3.00	Very Good
2.50 - 2.99	Good
2.00 - 2.49	Acceptable
Below 2.00	Weak

Study Plans

The study plan contains theoretical and practical aspects in accordance with the requirements of the Accreditation & Quality Assurance Commission for the Higher Education Institutions covering university requirements, faculty requirements, major requirements and electives. In addition to compulsory 10 hours of community service as a graduation requirement to serve the local community.

The study plan includes total credit hours, courses names and number of credit hours, prerequisite and concurrent requirements, course number & academic level, course type (theory, practical and blended), in addition to compulsory, elective and ancillary courses as well as field training hours for certain majors to complete graduation requirements.

The Master's study plan includes courses names and number of credit hours, elective, prerequisite and compulsory courses in addition to the thesis.

Academic Degrees

AAU grants Bachelor, Higher Diploma, and Master degrees after the students complete needed graduation requirements with a passing GPA in a specific time duration that is stated in the major's study plan in accordance with the rules & regulations of the University.

The semester overall GPA is calculated by multiplying the final grade of each course by the number of its credit hours and then dividing the sum of this multiplication by the total number of credit hours in that semester. While the cumulative GPA is calculated by the total average score of all the courses (pass or fail) by the student in accordance with the study plan up to that semester.

Faculty members

AAU ensures recruiting well-qualified and experienced faculty members (holders of Ph.D. and M.A. degrees). All specialties shall cover the areas required by the Accreditation and Quality Assurance Commission for Higher Education Institutions. The academic ranks include professor, associate professor, assistant professor, and instructor, holders of different nationalities.

Training courses and diplomas

The University holds multidisciplinary certified & professional training courses and Diplomas in collaboration with training centers that grant participants with certificates, certified by the Ministry of Higher Education and Scientific Research.

University Services and Facilities

The campus provides well-equipped facilities for students to meet all their needs and demands in a safe academic environment, including the following:

The library

The library keeps updated collections of books in different fields of knowledge to assist students in their studies and to enable both the academic staff and students arise with competent and quality research-papers and projects. The library is subscribed to many scientific e-databases that provide books, periodicals, and thousands of documents and worksheets presented in scientific conferences.

Female dormitory

Our University offers an on-campus equipped dormitory for female students. The dorms provide a safe and suitable study atmosphere, in addition to providing a range of services, such as free rides for grocery & shopping, daily maintenance, daily checkup on sanitation, electricity, water, heating, and all year-round free Wi-Fi.

Medical Services Department

The Medical Services department consists of an equipped clinic with up to date medical equipment, as well as experienced medical team providing health care. In addition to a pharmacy that dispenses free medications to students when in need along with an ambulance for emergency cases.

The Arena Complex

The Arena Complex is designed to hold luxurious cultural, sports and entertainment events. It is furnished with advance equipment according to the latest international standards.

The Arena provides multiple sports services through its facilities, which include bowling & billiards courts, swimming pools and fitness center. It is also used for hosting different athletic competitions as well as providing many cultural and artistic concerts.

Visa and Residency Office

The Office was established in 2014 and is under the supervision of the Deanship of Student Affairs in collaboration with the Ministry of Labor and Civil Service Bureau. It provides services to facilitate all processes related to residency and exit & re-entry visas for students and faculty members.

Military Service Office

The Office of Military Service assists in postponing the military service for male students of the university in order to facilitate their registration.

Post Office

The Post Office provides postal services, collection of bills including phone receipts and sending out & receiving all types of mail.

Restaurants and Cafeterias

There are several restaurants and cafeterias on-campus, which serve all categories of meals with high quality and under health and administrative supervision.

Transportation Services

The university provides scheduled inbound & outbound bus services for students during the academic semesters, as well as shuttling students within the campus facilities.

Other Services

The Campus offers stationary shops, internet services, lockers, ATM services, parking units, and praying rooms for male and female students.

The Hashemite Kingdom of Jordan

● location of Al-Ahliyya Amman University

Jordan

Jordan is named after the river running on its Western border. Jordan is a country that embraces different Arab cultures and dialects. The Jordan and Yarmouk rivers separate Jordan from neighboring countries, which consecutively create part of Jordan's borders with Palestine and Syria. The rest of the borders are an extension of the Sahara desert in the North & East as well as the Nefud desert in the South, in addition to Wadi Araba in the Southwest.

Jordan holds a special religious status among Muslims and Christians. It is the cradle for numerous prophets who were sent to teach their people the divine messages.

The landscape in Jordan varies significantly, particularly including the Ajloun Mountains in the Northwest along with the well-known Al-Sharah mountains in the South, which have the highest summit, Jabal Umm Al-Dami, rising 1854 meters above the sea level. The Dead Sea, known for its healing salt and muds is located 408 meters below sea level, which is the lowest point on earth.

Jordan's surface consists of a desert plateau in the east, and high land in the West, with the great rift separating between the East and West banks of the Jordan River. Jordan's surface consists of three regions: the rift of the Jordan valley, the high mountains, and desert plateau.
